Section: Loudoun Extra; T04

Length: 233 words

Body

Age: 39.

Residence: South Riding.

Education: BS, industrial engineering, North Carolina State University.

Occupation: President, Global Enterprise Inc.

Elective office/civic activities: Board of directors, Fathers for Virginia and Dulles South Little League; Compassion Workshop facilitator, McLean Bible Church; member, Jaycees and nonprofit Project Management Institute.

What do you think is the most urgent problem facing this Senate district?

"Family. This 'New Republican' emphasizes traditional Republican values through the lens of family values. Family encompasses transportation, growth, employment, education and immigration. Expanding highways creates growth and traffic. Bringing jobs, even the federal government, closer to home increases time with loved ones. My children's school can compete with any private school. Why is not every Virginia school as good as Little River Elementary? Having worked internationally, married a foreign national, I know immigrants' plight, tremendous values and ethics. Even my Mayflower forefathers were immigrants; we are all Americans. I will work vigilantly for Loudoun County, basing decisions on family."

Why should voters elect you?

"1) I understand the problems we all have.

"2) I can achieve the results we need.

"3) My only interest is to serve the people."
